Analysis goals

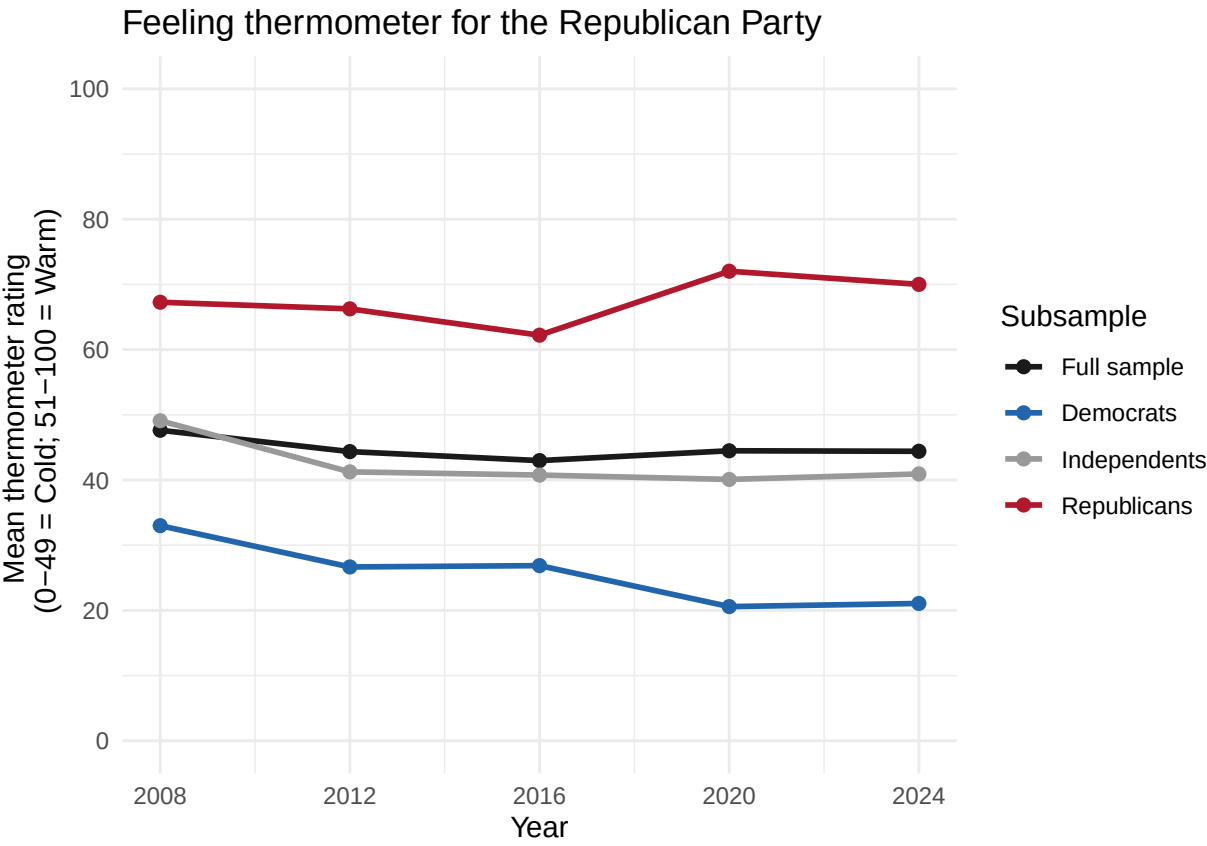

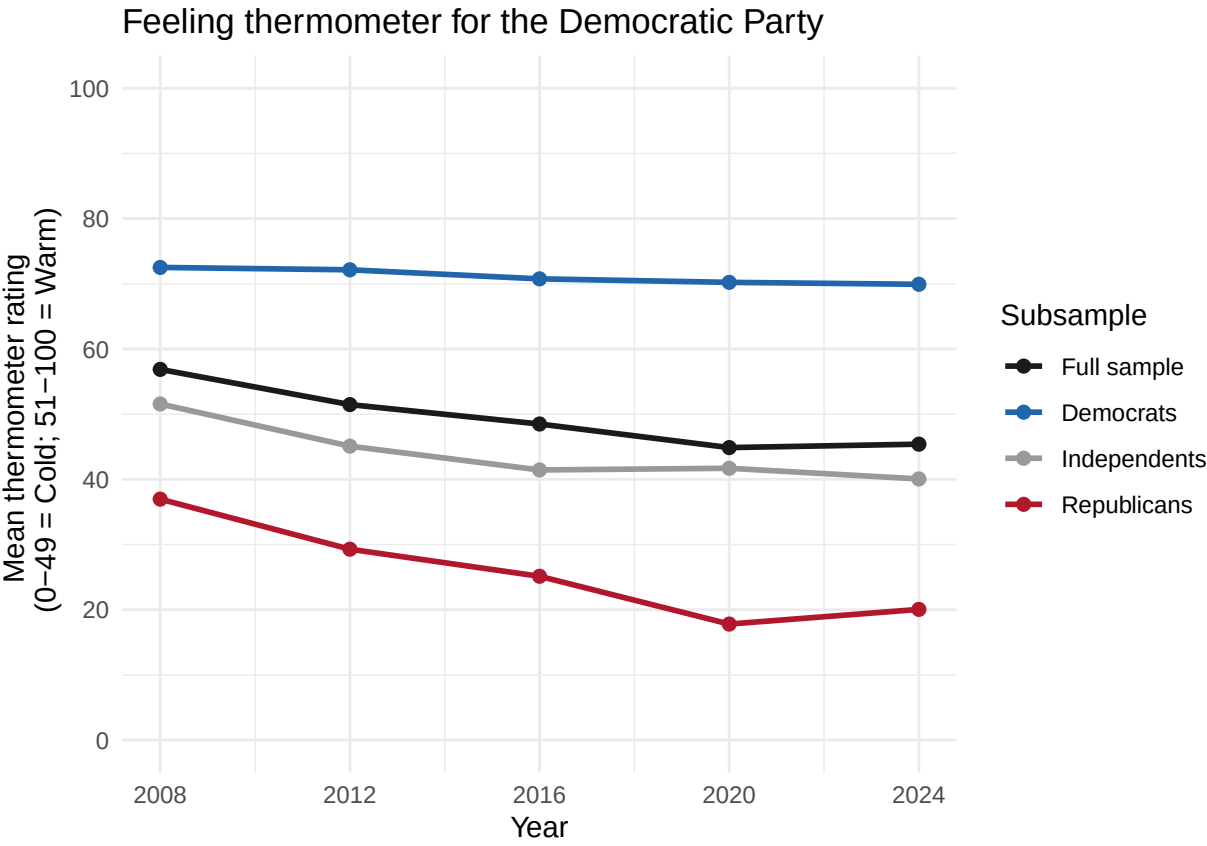

- PID distributions of the sample, 08-24
- Line chart of Democratic and Republican feeling thermometer ratings, 08-24 (`dem_therm` and `rep_therm`; weighted means)
 - Four lines * two panels: Full sample, Dem respondents, Rep respondents, Ind respondents
 - Run the same analysis for with `dem_liking_cses` and `rep_liking_cses` as robustness
- Stacked bar charts of non-responses
 - Also: broken down over time (clustered stacked bar chart)

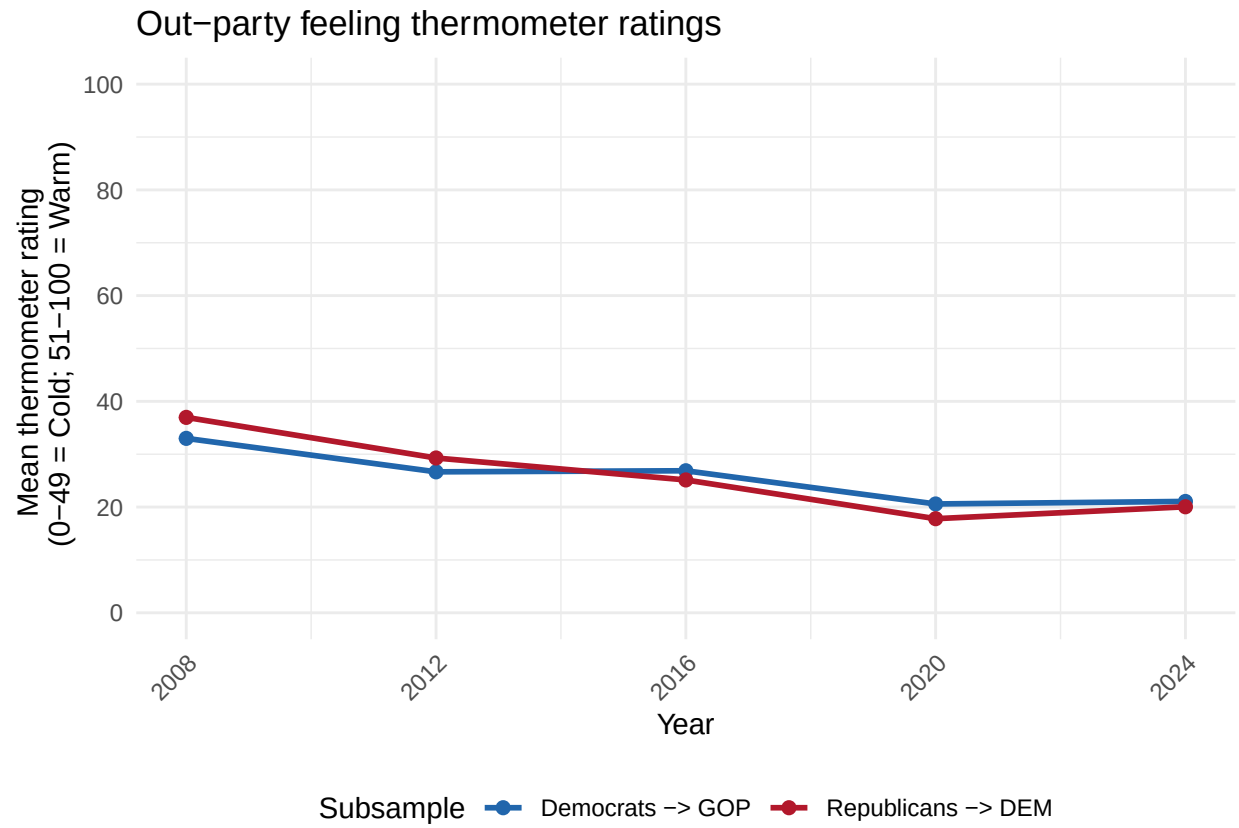

PID distributions of the sample, 08-24

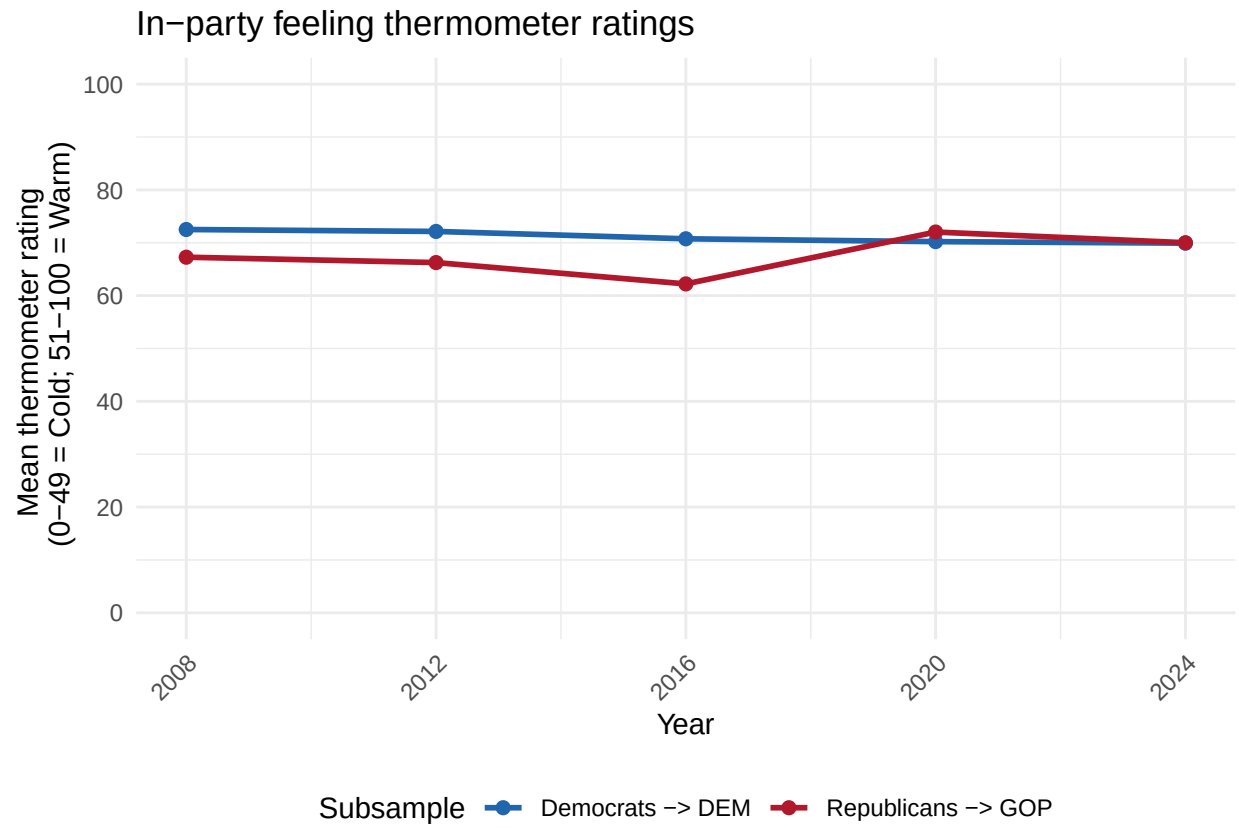

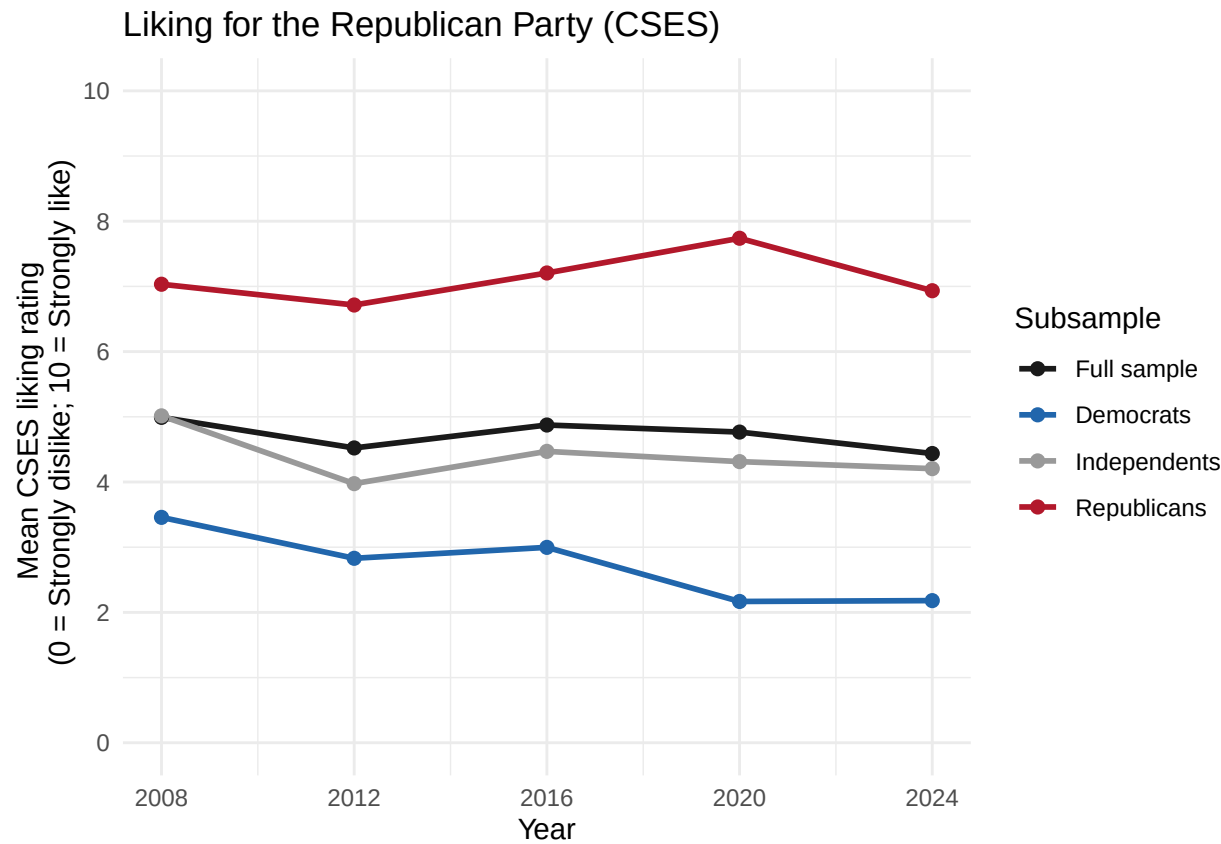

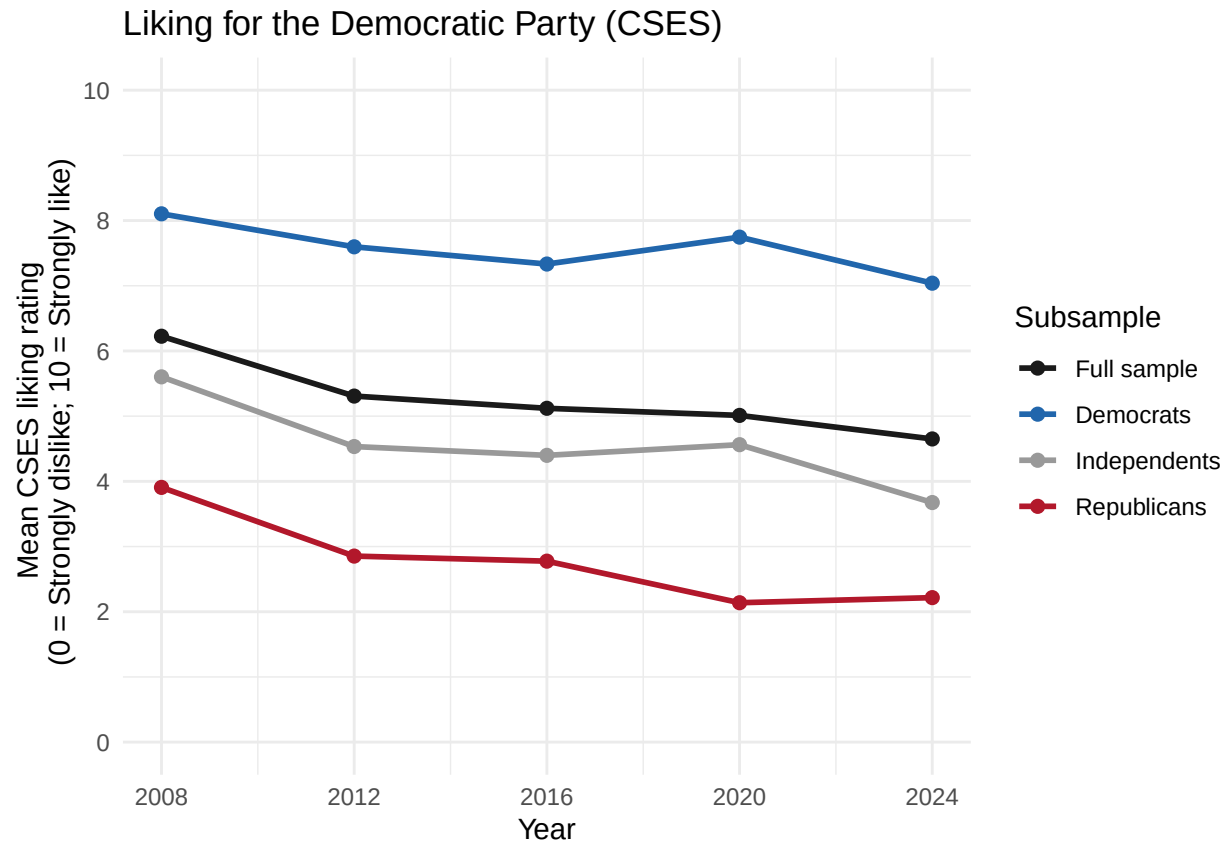

Weighted mean feeling thermometer ratings, 08-24

Robustness: Weighted mean CSES liking ratings, 08-24

Distribution of nonresponses
